Information about the service

Apartment Services is a broadband service available within serviceable apartment buildings, offering high speed internet access with a monthly included data allowance.

Availability & Requirements

This service is only available within a serviceable apartment building and does not depend on a bundling arrangement with other Telecommunications services. Any cabling that is required in your premises, beyond the network boundary point is at your cost and responsibility.

You will require a wireless router for this service. The monthly fee does not include the cost for a wireless router, however you may purchase one from us for \$149. Alternatively, you may purchase a wireless router from another retailer of your choice.

Minimum plan term

There is no minimum term.

Inclusions

Your Monthly Data Allowance is included in your nominated plan. Any unused monthly data allowance expires each month at the end of your billing cycle.

You may purchase data packs at an additional cost to increase your data allowance for the month. Data packs will also expire at the end of your billing cycle. Further information on data packs is available by logging into your account at myaccount.node1.com.au/login/

Exclusions

If you exceed your monthly data allowance in a month, your internet service will be slowed down to 1mbps/1mbps for all usage for the rest of that month until your next billing cycle begins (but you won't be charged extra for use).

Information about pricing

Monthly charge

Your minimum monthly charge is based off the plan you nominate. Please see the table below to view the monthly charge for your nominated plan. The maximum monthly charge depends on whether you have chosen to add additional data for the month, via purchasing our data packs.

Termination

There are no termination fees for this service.

Other charges

For new Apartment Services customers, a \$55 connection fee applies. If you're a new or existing Node1 customer, and would like a new wireless router you can purchase one from us for \$149.

Changing plans

To view the plans that you may switch to, login to your account. Your plan change will take effect at the start of the next billing cycle. Once your plan change has taken effect, you will receive a charge or credit to reflect this on your next bill. There is no fee for changing plans.

Billing

The figures in this Critical Information Summary are for a full billing cycle, however your first bill may include pro rata charges for part of the month if you started your service part way through a billing period.

Our billing cycle is based on the calendar month. You will be billed on approximately the 4th of each month, for the next month in advance. Any additional charges incurred during the previous period, such as the addition of data packs or a plan change, will also be included on your next bill.

Discounts & promotions

This summary does not reflect any discounts or promotions which may apply from time to time. It also does not reflect any added services that you select whilst you have this plan.

Fair Use Policy

You must comply with our Fair Use Policy and not use your services in an unreasonable or fraudulent manner, or in a way that detrimentally interferes with the integrity of the network. We may take action if you breach the **Fair Use Policy**, including suspending or cancelling your service.

Speeds

Actual speeds vary, and may be affected by network infrastructure, internet connectivity to your premises, wireless interference, limitations of network devices, mobile devices, consoles, computers, cables and other devices that you use, the available bandwidth of the service you're using (e.g. peer to peer games, website and download sources), and other users on your internet connection.

Speeds may be slower when your devices are connected by Wi-Fi rather than ethernet cable.
