Appointment of an Authorised Representative (Optional)

When you appoint an Authorised Representative, you are giving the person you appoint the authority to deal with us on your behalf as your agent. This means that the Authorised Representative has the power to act and access information as if they were you. This includes making complaints, changing account details or cancelling a service. If you wish, you can specify limitations of your Authorised Representative's rights.

Service & Plan Options

Depending on your service area, you will either be eligible for a Fibre to the Node (FTTN), Fibre to the Building (FTTB), Fibre to the Premises (FTTP) or NBN HFC (Cable) internet service.

To determine which NBN service you require, the diagram to the right displays the NBN utility box you will have installed on the outside of your premises if in a FTTP or NBN Cable service area. If this NBN utility box has not been installed, you can assume you are in a FTTN or FTTB service area as this box is not required for those services.

Connection fee for all NBN Fibre services is \$55. The plans below are not available for commercial use.

*If the battery backup service option is not selected, no NBN-based services, including telephone and data services, will work in the event of a power failure or if the power is switched off at, or disconnected from, the power point. The Battery Backup powers the NTD in the event of power failure or disconnection to support some services using certain types of telephones/devices for a limited period of time (a total of approximately 5 hours under typical conditions) provided they use supported ports. You should ensure you have alternative means (such as a mobile phone) to place emergency calls. Medical and/or security alarms may also be affected. You should discuss your needs and solutions with your alarm provider. Please also consider the needs of anyone who lives/works at the service address when making a decision regarding the battery backup service. If you require a battery backup service in the future, an appointment to install the Power Supply with Battery Backup can be arranged with Node1 Internet.
